WARNING
KEEP BATTERIES AWAY FROM CHILDREN

Swallowing may lead to serious injury or death in 2 hours, due to chemical burns and potential perforation of the esophagus.
If you suspect your child has swallowed or inserted a battery, immediately call the 24-hour Posion Information Centre for emergency specialists advice.

4. Important reminders

1、Battery life time varies depending on individual usage habits. Frequent audible searching will accelerate the consumption of the battery.

2、In order to ensure better dustproof and waterproof, after installation, please be sure to tighten the top and bottom caps firmly.

3、Because the device adopts crowdsourcing network, there may be a delay in positioning, such as the management platform and APP no data, you can wait for half an hour to refresh the location information. And try to open the device in the place where there are more cell phones.

4、Please do not disassemble the device, improper handling by non-professionals may cause damage to the device.

5、Please use the battery specified by the original manufacturer of the terminal, the use of any other accessories will make all warranty services become invalid.

6、The manufacturer of the terminal will not bear any warranty responsibility for any damage caused by the use of non-original factory accessories on the terminal.

5. Regulatory Safety Information

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different
from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
